INEMURI

Andrea Steidl

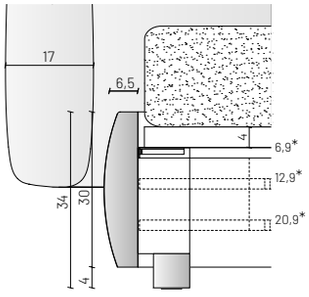

TESTIERA: struttura interna tamburata in legno e legno di media densità certificati CARB-2, imbottita con fiocco di poliuretano espanso e rivestita con resinato. A delinearne il profilo una cucitura ribattuta.
GIROLETTO: struttura interna realizzata con pannelli di particelle legnose certificati CARB-2, imbottiti in poliuretano espanso e rivestiti con tessuto accoppiato. Piedini cilindrici diametro 70 mm a scomparsa in materiale plastico colore antracite. Il giroletto è dotato di serie di traversa centrale con piede di supporto ed è predisposto anche per l'alloggiamento di reti divisibili.
RIVESTIMENTO: sfoderabile in tessuto o ecopelle.

HEADBOARD: internal structure made of honeycomb and CARB-2 certified medium-density wood, upholstered with polyurethane foam and covered with wadding. The profile is oulined by a double stitching.
BED FRAME: internal structure made of CARB-2 certified wood particle-board panels, padded with polyurethane foam and upholstered with bonded fabric. Cylindrical feet dia. 70 mm made of anthracite-coloured plastic. Bed frame supplied with central crosspiece and support foot and is also fitted to accommodate two separate bed slats.
UPHOLSTERY: removable in fabric or similar leather.
